

Monthly Intelligence Report · May 2026

Prepared by Qalqan AI · qalqan.kz · For KazCERT and public distribution

In May 2026, Qalqan AI processed **142,847** URL checks across Kazakhstan. A total of **23,419** threats were blocked, representing a block rate of **16.4%**. Gambling sites remain the dominant threat category at 44.8%, followed by phishing at 31.2%. Government procurement fraud detection — unique to Qalqan AI worldwide — flagged 312 suspicious tenders out of 1,284 analysed.

142,847 Total URL Checks	23,419 Threats Blocked	16.4% Block Rate	312 Fraud Tenders
--	--	--	---

Trend shows consistent 15-20% month-over-month growth in detected threats, correlating with increased internet adoption and social-engineering campaigns targeting Kaspi Bank and eGov users.

Region	Share %	Bar
Almaty	35.2%	[#####.]
Astana	21.8%	[#####.....]
Shymkent	12.4%	[#####.....]
Other regions	10.4%	[#####.....]
Qaraghandy	8.1%	[####.....]
Atyrau	6.3%	[###.....]
Aqtobe	5.8%	[###.....]

These domains were detected and blocked by Qalqan AI in the reporting period. All impersonate trusted Kazakhstani services.

Qalqan AI is the world's first automated AI system for detecting fraud patterns in Kazakhstan's government procurement platform ([goszakup.gov.kz](#)). 10 red-flag rules are applied to each tender.

Tenders Analysed	1,284
Red Flags Detected	312
Dangerous (score ≥50)	8.4%
Suspicious (score ≥20)	15.9%
API Source	goszakup.gov.kz (open, free)
Rules Applied	10 (monopoly, overpriced, shell, instant-deadline...)

Tier	Method	Coverage
1	Whitelist — trusted KZ domains	Instant safe verdict
2	Cache — seen URLs	Sub-ms repeat queries
3	Pyramid + KZ Intel + Gambling	Rule-based KZ patterns
4	VirusTotal / PhishTank / USOM	External threat DBs
5	Domain Intelligence (RDAP/SSL)	Age + cert validity
6	Groq LLaMA 70B + Gemini Vision	AI deep analysis + XAI

KazCERT Integration: Share Qalqan AI block-lists with KazCERT for national-level response.

egov.kz + Halyk Bank: Embed Qalqan API into login flows to protect 15M+ citizens in real-time.

Prosecution Support: Top-5 financial pyramid domains show clear repeat operator patterns — forward to financial police for investigation.

Mobile QR Campaign: Deploy QR scanner awareness campaign — Kaspi QR phishing is the #1 mobile threat vector in KZ.

Procurement Oversight: 8.4% of analysed tenders show DANGEROUS patterns; recommend AZ review of flagged contracts.
